All that is left is for a small debate and vote on the floor of the NFPA World Safety Conference in June. You can be the first to know which changes will be coming in the next edition of NFPA 13. Cecil Bilbo will explain the major changes occurring and he'll discuss some of the things that did not make it into the new edition.
 - 2) **"Fire Protection Systems – Myths & Facts" – Jim Schifiliti.** This Presentation will review some of the myths that designers and contractors use when designing and installing fire protection systems. Topics include check valves, fire department connections, rack sprinklers, and sprinkler spacing/locations with ceiling elevation changes.
